

ADC AD-333

30-lb x 2 Capacity OPL Dryer

Standard Features:

- 30-lb. x 2 capacity
- 10.1 cu. ft. volume
- 72,000 Btu/hr heat input, 400 cfm airflow per pocket
- Partial axial airflow
- Steel door with gasketless glass
- Two 8" diameter top exhaust connection
- Optional single 10" exhaust connection
- 1/2" gas connection per pocket
- Fits through a standard 36" door
- Available in gas heat
- Available in gray or white front and cabinet

AD-333 OPL Stack Dryer

Why Purchase ADC AD-333?

Engineer-Driven Design That is Built to Last

Our dryers showcase ADC's engineer-driven approach to design. Bearings are permanently lubricated on the motor and drive system. There are no chains used at ADC; rather, we use V-belts and pulleys that simplify serviceability and ensure smooth, quiet, and trouble-free operation. Our dryer cabinets are electrostatically powder-painted inside and out, then baked at 420-degrees fahrenheit before final assembly—ensuring the hardest surface and the longest-lasting finish in the industry.

Rugged Steel Door with Gasketless Door Glass

Our dryer doors are one solid piece of steel with gasketless glass. This eliminates the issue of glass falling out due to wear and tear on rubber gaskets that some manufacturers use to secure their glass. The security and durability that gasketless glass provides is essential to a successful laundromat operation.

More for Less

The AD-333 incorporates all the state-of-the-art design features from the leader in stack dryer design—with simple controls, an easy-to-read LED screen and a large, lightweight lint drawer that is accessible and easy-to-clean—only requiring cleaning once a day. Its fine stainless-steel lint screen is standard. Available for coin or card ready, the AD-333 gives you all the benefits of ADC quality engineering at a low cost.
