**\$\$\$ USED COMPUTER BOARD BUY BACK PROGRAM \$\$\$**

If you have used, or unwanted **ADC** computer boards, or relay boards hanging around, don't throw them away...**ADC** will buy them back!! **ADC** is offering a monetary bounty on used or old **ADC** dryer computer/controller (Phase 3,4,5 or 6) M.P. boards, or relay boards (cube relay type, contactor type, or Solid State "SSR"). For **ADC** boards returned to **ADC** under this program, we will issue a credit to the sender in the amount of \$26.00 Net (U.S. Dollars) each towards your next purchase from **ADC**. **ADC** is not responsible for shipping charges.

For more details, contact the **ADC** Service/Technical department, or return the board(s) (postage prepaid) to:

American Dryer Corporation  
88 Currant Road  
Fall River, MA 02720

**Mark for the attention of "Bounty/Buy Back Program"**. Please include your complete name, return address, and telephone number.

**ADC RESERVES THE RIGHT TO REFUSE ANY BOARD DEEMED NON REPAIRABLE, AND TO CHANGE OR DISCONTINUE THIS PROGRAM AT ANY TIME.**

**SOLARIS LINE COIN BOX USAGE LISTING**

Coin boxes (with lock) for our Solaris line can be purchased as an option at the time the dryer order is placed, or as a parts order through our parts department by ordering the appropriate part number. Each box comes with two (2) keys, and **each lock is keyed "different"**.

SL-75,CGS7585,MDG77,M75SL .....	125916

**SL PHASE 7 MODEL SELECTON UP-DATE**

In reference to Bulletin no. 182 dated *August 3, 2005*, changes have since been made to the dryers' circuitry so that the Solaris gas models with Hot Surface Ignition no longer need to have the model selection set for "Electric". For gas models manufactured as of *August 31, 2005* the model selection "MUST" be set for "GAS".

For existing gas Hot Surface Ignition dryers manufactured prior to this *August 31, 2005* date, a kit is available for modifying the SL-20,31,50,75,CG-20 & STI-8 interconnect harness, where the computer will now look for a flame return and the Phase 7 computer model selection can be set for "GAS" rather than "Electric". The kit is **ADC** P/N. 884330 and includes a jumper wire, cable ties and instructions.

## SOLARIS LINE 11" STACKABLE PEDESTALS

Unless the pedestal option is purchased, our Solaris line is shipped without a pedestal. The 11" high pedestal(s) can be purchased at the time the dryer order is placed, and at an additional cost option assembled (\*) to the dryer. Contact the **ADC** sales department for pedestal options, and pricing.

(\*) When two 11" pedestals are purchased for one dryer, and assemble to dryer option is purchased, dryer is shipped with NO more then one (1) pedestal assembled to dryer. The second pedestal is shipped not assembled, but with the dryer, along with necessary mounting hardware and instructions.

Pedestals are available as a parts order and include necessary mounting hardware and instructions. All are sold as single 11" pedestals and can be stacked for 22" applications. Contact **ADC** parts department for prices.

## AD-330, D330 PH 7.4 WITH S.A.F.E. / F.S.S. RESISTOR CIRCUIT

The AD-330 and D330 with phase 7.4 controls and optional S.A.F.E. or F.S.S. have a resistor assembly (**ADC** P/N 830522) added to the water solenoid valve circuit. This resistor is connected to the solenoid valve in series with the black/white wire as shown in the illustration below. This change was implemented into production as of *August 12, 2005*.

For existing dryers in the field, if the dryer fault code reads "SHORTED WATER VALVE" and the water valve is known to be good, adding this resistor assembly (**ADC** P/N 830522) will correct the erroneous fault code.

This change only pertains to models manufactured with optional S.A.F.E. or F.S.S.

### **AD-78, D78, MDG76, CG-78 MAIN DOOR CHANGE (CATCH TO MAGNET)**

As of *August 30, 2005*, the plastic friction door catch (**ADC** P/N 170330) is no longer used to keep the door closed in place on the models AD-78, D78, MDG76 and CG-78 manufactured with our 37¼" main door. The door is now held closed by two (2) magnets affixed to the front panel, and two brackets mounted to the 37¼" main door assembly.

As the result of this change, this new main door or front panel are **NOT** interchangeable with models manufactured prior to this change with the white plastic door catch arrangement.

A kit is available to convert existing dryers (catch type) in the field, with the 37¼" door, to this magnet type arrangement. The kit is **ADC** P/N 884305 and includes all the necessary parts (magnets, rivets, brackets) and installation instructions.

### **SL-31, SL-3131 NEW ADJUSTABLE LEVELING LEG**

Changes have been made to the leveling leg used on the models SL-31 and SL-3131, where the top of the adjustment bolt has a hex and the leveling leg/foot can now be easily adjusted with a wrench. The newly designed leveling leg (**ADC** P/N 103502) was implemented into production on *September 28, 2005*. The new adjustable leveling leg can be used as a direct replacement.

## **OCTOBER 1, 2005 PARTS PRICE LIST**

---

Our current Parts Price List (**ADC** P/N 451000) has an *October 1, 2005* effective date. This updated Parts Price List is available to be downloaded from our website, [www.amdry.com](http://www.amdry.com). As with previous Parts Price Lists, it will also be available on our ADC Publications CD-ROM (**ADC** P/N 882206). Printed copies of the *October 1, 2005* Parts Price List will be available through normal parts order channels at a minimal fee of \$2 NET.

The Parts Price List is updated on a quarterly basis: January, April, July, and October.

- IMPORTANT:**
- 1) Prices are subject to change without notice. The price(s) on the invoice may not necessarily be the same as the price(s) shown on the Parts Price List.
  - 2) Formal (written) quotes will be valid for thirty (30) days. When submitting parts orders in which a formal quote was issued, the quotation number must be provided at the time or the quote will not be valid.
  - 3) Verbal quotes are not binding and will not be honored

## **REMINDER - E-MAIL PARTS ORDER SHIPMENT NOTIFICATION SYSTEM**

---

**ADC** has a system available to notify our customers by e-mail when their parts order is shipped via UPS. However, to do this you *MUST ASK* for this service and provide an e-mail address at the time the order is placed with our customer service representative. Once the order is shipped by **ADC**, the automatic UPS shipping notification system will be activated and you will be informed by UPS, via e-mail, of the status of your shipment.

The notification will include the following Important Delivery Information: Ship To Address; Number of Packages in Shipment; UPS Service (Next Day Air, etc.); Weight; UPS Tracking Number; and Reference Number, which is ADC's acknowledgment (packing list) number. Any reply to this notification will not be received by UPS or **ADC**.

## **ADC WEB SITE PUBLICATIONS**

---

The publications section of our website ([www.amdry.com/service/index.asp](http://www.amdry.com/service/index.asp)) includes a library of all publications available electronically, including Technical Bulletins, Parts Manuals, Installation Manuals, User's Manuals, Addendums, Service Manuals, Price Lists, and Warranty Information. The site is updated weekly and includes both current production and past production manuals.

## ADC PUBLICATIONS CD-ROM (P/N 882206)

ADC's current CD-ROM SET (2005-4) is available (2 CD set), and includes our most current installation, parts, service, and user's manuals. The CD-ROM SET (P/N 882206) can be ordered as a regular parts order at a price of \$21.20 NET each.

Due to the ever-changing nature of computer file formats, the manuals on this CD-ROM are the ONLY ones available in an electronic format. Other manuals not included on this CD may be purchased directly from ADC in hard copy form at the prevailing cost shown in our Parts Price List. Changes made to the CD-ROM will be listed in future Technical Bulletins. No CD-ROM updates will be available through ADC's website. Only manuals regularly posted on the website will be updated there.

Our Publications CD will be updated quarterly to include changes, updates, and new manuals as they are made available.

**NOTE:** ONCE THE CUSTOMER OPENS THE CD ENVELOPE AND THE SEAL IS BROKEN, THE CD CANNOT BE RETURNED FOR CREDIT OR REFUND.

## E-MAIL REGISTRATION FORM

American Dryer Corporation currently distributes the Technical Bulletin updates via e-mail. This technology enables us to send updates to specific individuals who wish to receive the Technical Bulletin. Please feel free to submit as many names for our e-mail file as you wish.

We are asking all of our customers with e-mailing capabilities to fill out the following form with the e-mail addresses of the individual staff members who should receive the Technical Bulletin. After filling out the form below, please fax the form back to **American Dryer Corporation** at (508) 678-9447 or e-mail the following information to: [www.amdry.com/service/registrationcode/index.aspx](http://www.amdry.com/service/registrationcode/index.aspx)

Each Technical Bulletin will be sent as an e-mail attachment. Acrobat Reader **must be** installed on your computer in order to view and print the file. ACROBAT READER CAN BE DOWNLOADED FOR FREE FROM OUR WEBSITE: [www.amdry.com/service/techbulletins/index.asp](http://www.amdry.com/service/techbulletins/index.asp)
