

ADC 80-pound i-Series OPL Dryer

Insulated Cabinet

Variable drum speed, trans-axial air flow and a fully insulated cabinet with double-pane door glass helps contribute to machine efficiency.

Machine Longevity

The sturdy, steel-welded cabinet and the industrial-grade components contribute to endurance and performance consistency.

Single-Phase Reversing

Ease of installation with single phase reversing drum.

The Sensor Activated Fire Extinguishing (S.A.F.E.)

Helps detect potential dryer fires to further protect product investments and facilities.

Program and Cycle Flexibility

Easy-to-use Intuitive Micro Controls (IMC) are customizable and provide an intelligent, one-touch program selection to enhance productivity and optimize efficiency.

5-year Limited Parts Warranty*
